Continuation of 3. NOTE: It is the examiner's position that the newly added limitation "so that particles having a predetermined size reach the substrate when the falling speeds of the solder fine particles are within a specific time period, the specific time period being defined to exclude solder fine particle both larger and smaller than the predetermined size" significantly changes the scope of independent claims 1 and 4. Accordingly, the amendment requires both further consideration and a new search. It should also be noted that the limitation "exclude solder fine particle both larger and smaller" should read --exclude solder fine particles both larger and smaller--.
